Wengxi Li

wengxili-c@my.cityu.edu.hk imerlwx.github.io +852 6747 7850 Hong Kong

Education

City University of Hong Kong 2025 – Expected 2028
Ph.D. in Creative Media (Computer Science Track); Hong Kong Ph.D. Fellowship Scheme

University of Michigan 2021 – 2023
M.S. in Electrical & Computer Engineering GPA: 4.00/4.00

Beijing Normal University 2016 – 2020
B.Sc. in Physics GPA: 3.60/4.00

Research Experience

City University of Hong Kong 2024 – present
Research Assistant Advisor: Can Liu

- Implemented **prosodic feature extraction** and **word-level TTS control** using pretrained JETS, translating vocal demonstrations, direct controls, and natural-language instructions into pitch, energy, and rhythm adjustments [1].
- Integrated **streaming ASR, gist extraction, and embedding-based layout** to maintain an manipulable representation of users' ideas across successive speaking turns [2].
- Characterized user strategies and adoption barriers in **LLM-assisted speech writing** through focus groups and diary studies and by using thematic analysis to analyze interaction logs and interviews [4].

Stanford University 2023 – 2024
Research Assistant Advisor: Hariharan Subramonyam

- Developed an **LLM tutoring agent guided by Cognitive Apprenticeship**, using a domain-specific language to structure dialogue, and designed **expert dialogue evaluation** and **component ablations** [3].

University College London 2020 – 2021
Research Assistant Advisor: Bradley Treeby

- Created an ultrasound simulation dataset with time-reversal and geometric beamforming algorithms and **trained neural networks** to predict transmit-phase corrections from target position and head motion.

Technical & Research Skills

Programming & AI: Python, PyTorch; TypeScript, Flask; SFT and RL (GRPO).
Speech systems: Streaming ASR, structured LLM dialogue generation, prosodic feature extraction, word-level TTS control.
Research methods: Experimental design, LLM dialogue evaluation, ablation studies, mixed-methods analysis.

Academic Service

Reviewer: CHI'27, CHI'26, UIST'26, International Journal of Human-Computer Studies, NordiCHI'26, Chinese CHI'24.
